Enterprise · Odoo.sh · On-premise

MTO Cheapest Vendor

Make-to-order purchases go to the vendor with the lowest valid price, automatically

MTO Cheapest Vendor is an Odoo 19 app that picks the vendor with the lowest valid price when a make-to-order sales order creates an RFQ or purchase order. It respects vendor minimum quantities and price validity dates, and there is nothing to configure.

Technical name flexcode_mto_cheapest_vendor · one-time price for Odoo 19.0; each Odoo version is bought separately

At a glance

Category	Inventory & Purchase	Odoo versions	Odoo 19.0
Editions	Enterprise	Hosting	Odoo.sh, On-premise

Price	55,30 € one-time · Odoo 19	Support	90 days free support from FlexCode

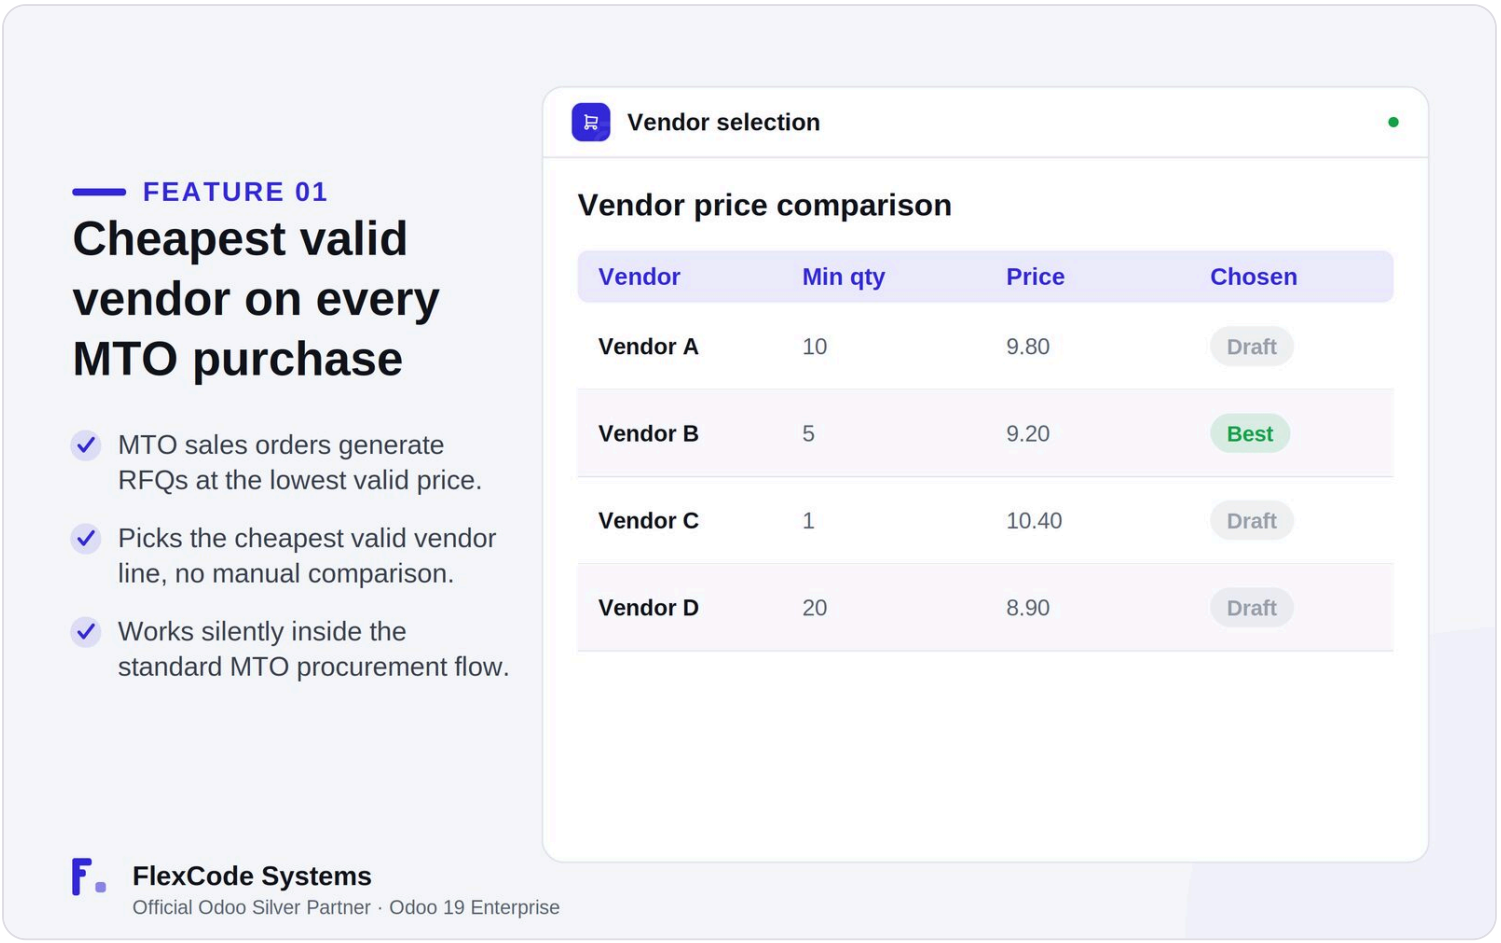
KEY FEATURES

- Cheapest valid vendor on every MTO purchase
- Respects your vendor pricing rules
- Lightweight and focused

The problem

When Odoo creates a purchase from a make-to-order sale, it does not always pick the cheapest supplier. Buyers then compare vendor prices by hand on every generated RFQ, or the company quietly overpays. With several suppliers per product, those small differences add up across a year of orders.

What it does



Vendor comparison: the cheapest valid vendor line is chosen. Illustration from the store listing.

Cheapest valid vendor on every MTO purchase

- Select the lowest valid vendor price automatically when an MTO sales order generates an RFQ or purchase order.
- Pick the cheapest valid vendor line with no manual comparison.
- Work silently inside the standard MTO procurement flow.

Respects your vendor pricing rules

- Consider only genuinely valid vendor lines.
- Honour vendor minimum quantities where they apply.
- Honour vendor price validity dates where they apply.

Lightweight and focused

- Leave manually created purchase orders untouched.
- Add no new models or menus.
- Work out of the box, with no data or views to set up.

Who it is for

- Procurement teams running make-to-order flows.
- Buyers who want the best vendor price chosen automatically.
- Companies with several suppliers per product.
- Businesses that want savings without changing their workflow.

NOT A FIT WHEN

- Manually created purchase orders, which the app leaves untouched.
- Databases on Odoo Online (SaaS), which cannot install third-party apps.
- Odoo Community: the app is built and tested for Odoo 19 Enterprise.

Install

Requires: **Purchase (purchase)**, **Inventory (stock)**, **Invoicing (account)**, **Discuss (mail)**

1. Buy the app on the Odoo Apps Store for Odoo 19.0.
2. Add the module to your Odoo.sh project or to the addons path of your on-premise server.
3. Update the apps list in Odoo and install MTO Cheapest Vendor. Missing dependencies are installed with it.

> Odoo Online (SaaS) does not allow third-party apps, so MTO Cheapest Vendor cannot be installed there. Use Odoo.sh or an on-premise Odoo 19 Enterprise database.

Configure

1. Keep your vendor prices on the products as usual, with minimum quantities and validity dates where you use them.
2. Sell the products make-to-order as you do today. There are no app settings to change.

SETTING	WHAT IT DOES
Vendor price	The price on each vendor line. The lowest valid one wins.
Minimum quantity	A vendor line only counts when the ordered quantity meets its minimum.
Validity dates	A vendor line only counts while its price is valid.

How to use it

Buy from the cheapest vendor on MTO orders

1. Confirm a make-to-order sales order that generates an RFQ or purchase order.
2. MTO Cheapest Vendor selects the cheapest valid vendor line for the generated purchase.
3. Review and confirm the RFQ as usual.

Limits

- It only acts on MTO-generated RFQs and purchase orders. Manual purchases are not changed.
- It chooses between the vendor lines you maintain. Missing or outdated vendor prices cannot be compared.
- It cannot be installed on Odoo Online (SaaS). The price covers one Odoo major version.

Frequently asked questions

How do I make Odoo choose the cheapest vendor for make-to-order?

Install MTO Cheapest Vendor. When a make-to-order sales order generates an RFQ or purchase order, the app selects the vendor line with the lowest valid price automatically.

Does it respect vendor minimum quantities and price validity dates?

Yes. MTO Cheapest Vendor only considers genuinely valid vendor lines, honouring minimum quantities and price validity dates where they apply.

Does it change manually created purchase orders?

No. It targets RFQs and purchase orders generated by make-to-order sales and leaves manual purchases untouched.

Is there anything to configure?

No. MTO Cheapest Vendor works out of the box with your existing vendor prices and adds no new models or menus.

Which Odoo versions and editions does MTO Cheapest Vendor support?

It is built and tested for Odoo 19 Enterprise, on-premise and on Odoo.sh. Odoo Online does not allow third-party apps. The price is one-time per Odoo major version.

Does MTO Cheapest Vendor modify Odoo core?

No. It is clean code with no core monkey-patching and no migration scripts.

Need it set up or adapted?

We configure our apps for your process, train your team and build the extra pieces you need. Every purchase includes 90 days of free support from FlexCode Systems. Questions: info@flexcodesys.com
